Professional Summary

I am an enthusiastic and dependable individual, driven by ambition and a strong desire to grow and create positive change through the use of my technical skills. I have experience with web development technologies, including JavaScript frameworks and PHP, and have applied Test-Driven Development (TDD) practices by writing unit tests using Jasmine during my time at Umuzi. I am energetic, adaptable, and committed to completing tasks efficiently and effectively. With strong communication skills and a collaborative mindset, I am eager to contribute to team success while continuously expanding my technical knowledge and capabilities at Umuzi.
